Effective March 1, OOCC will be accepting orders that include our 13 ounce mason jar candles, but there will be indefinite lead times on when this portion of the order will ship. The worldwide pandemic has created an unprecedented rise in the amount of home canning that is being done as well as a need for foods that come in glass jars like jams, jellies, vegetables, etc, thus creating a demand that glass manufacturers cannot keep up with and we will not have them available for wholesale purchase until further notice.

If you have an in-house ordering pending prior to March 1, you will still receive your order with the mason jars on them. Any orders taken from this point on will be held indefinitely until we know when the mason jars are back in stock, unless you would like the order shipped without them.

We have gone to great lengths to source our jars and we are confident that we will have them available in the future, but we do not know exactly when that will be; it could be a few days, it could be a few weeks. We will issue a follow up notification when we are able to determine when we are able to go back into production on these.

We are still happy to offer our 13-ounce decorative tins, which are the same size, strength and quality as our 13 ounce mason jars. We also have our 2.4 ounce wax melts, 6.5 ounce aromatherapy candles, 3.5 ounce mini mason jars (subject to availability as well) and 5 ounce mini tin candles.

We will also be offering other style candles in different vessels in the future, depending on what we are able to procure. Please stay tuned and we will keep you updated along the way. We appreciate your continued business and loyalty, and we are doing everything we can to make sure your shelves are stocked with our candles just as quickly as we can.

If you have any questions, please feel free to reach out to us at 716-769-5000 and we will be happy to assist you.

Larry Gross,  
President
